***Detailed Action***

***Response to Amendment***

1. Applicant's amendment and accompanying Remarks filed 6-30-2003 have been entered and carefully considered. The amendment is insufficient to overcome the obviousness rejections of claims 1,2 and 4-7 but is sufficient to overcome the 112 2<sup>nd</sup> paragraph rejections of claims 1-5 and 7. Claim 3 is cancelled without prejudice.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,2 and 4-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 03106942A in view of US 5,747,533 to Guzauskas in view of JP 06313019A substantially as set forth in paragraphs 6 and 7 of the previous office action.

***Response to Arguments***

4. Applicant argues that JP 03106942A, US 5,747,533 to Guzauskas and JP 06313019A do not disclose any motivations to combine teachings together to obtain a photocurable sheet form material of the present invention. JP 03106942A is directed to fiber reinforced plastics. Guzauskas is directed to fiber reinforced plastics. JP 06313019A provides teachings applicable to fiber reinforced plastics that make use of polymerizable resins. Therefore, all of the prior art is analogous. With respects to motivation, the application of Guzauskas's teachings have been previously rendered

Art Unit: 1764

obvious because one of ordinary skill would have desired to improve overall processability of the composite disclosed by JP 03106942A. Applicant has not disputed the inapplicability of the relied on motivation. With respects to motivation, the application of the teachings disclosed by JP 06313019A merely replaces one application's specific material with another material. Applicant has failed to point out any flaws with the specific relied upon teaching.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office Action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
